Skills

Languages: JavaScript, CSS, SCSS, Less, HTML, Bash

Libraries/Frameworks: React, Express.js, Vitest, Bootstrap, Animate.css

Tools: Git, Node.js, Linux, Vim, npm, Photoshop, Inkscape

Projects

Remix Hiking Supplies Store - React, SCSS

[GitHub](#) | [Live Demo](#)

Responsive e-commerce app with modular React components and client-side routing via React-Router. Implemented dynamic state management to power a seamless, functional shopping cart experience.

Etch A Sketch - HTML, SCSS, JS

[GitHub](#) | [Live Demo](#)

Etch A Sketch web app built with vanilla JS (ES6+) and direct DOM manipulation. Dynamic grid size, erase button, RGB feature, ink color selections.

Interior Design Page - HTML, SCSS, JS

[GitHub](#) | [Live Demo](#)

Responsive interior design landing page built from a designer's mockup.

Experience

Front-End Developer (Oct 2022 - Mar 2025)

GrapeCity - Remote

- Engineered and maintained a library of reusable, responsive UI components across the Umbraco CMS.
- Established a biweekly technical site-health reporting process, collaborating with cross-functional teams to eliminate 2,000+ 404 errors and improve SEO performance.
